Bulgaria's Euroins to boost capital by 12.3M leva

Bulgaria's Financial Supervision Commission (FSC) said on June 30 2011 it had given the green light to local insurer Euroins to hike its share capital by 12.34 million leva.

The capital increase is part of the company's steps to comply with the European Union's new capital requirements under Solvency II, Kiril Boshov, board chairman of Euroins' indirect shareholder Eurohold Bulgaria, said.

The directive will stipulate new rules for the money that insurance companies in the EU should have and most of them would translate into a capital increase. The requirements will come into force for Bulgarian insurers at the start of 2013, Boshov said.

Euroins Insurance Group, which holds a direct controlling interest in the company, will subscribe for shares equal to its current 77.22 per cent stake as part of the transaction, according to Boshov.

The capital hike will be considered successful if at least 50 per cent of the shares are subscribed for.

The capital of Euroins will grow to 20.57 million leva if all the issued stock is sold.

Bulgaria's Sopharma to distribute 11.2M leva in dividend for 2010

The shareholders of Bulgarian pharmaceutical group Sopharma have approved its plan to pay out a dividend of 11.22 million leva in dividends for 2010, the company said on June 30 2011.

The amount corresponds to a dividend of 0.085 leva a share.

Sopharma ended 2010 with a net profit of 40.67 million leva, of which 10 per cent will be set aside to its reserves, while the remainder will be transferred to the additional reserves fund.

The shareholders also cleared the issue of a corporate guarantee for a bank loan, which will be drawn by its real estate investment trust (REIT) Sopharma Properties.

Sopharma topped the Kapital 100 annual ranking as the country's best public company in 2010 for a second year in a row.

Bulgaria's Investor.bg pays 910 000 leva for Imoti.net, Az Media

Bulgarian online media group Investor.bg has paid a combined 910 000 leva for the acquisition of real estate portal Imoti.net and media group Az Media, the company said on June 30 2011, but declined to reveal the value of the individual deals.

The company announced the takeover of the property listings website on June 27, while the purchase of Az Media's websites az-jenata.bg, az-deteto.bg and ludimladi.bg was unveiled on June 29. Investor.bg plans no reshuffles at the teams of both websites.

The two acquisitions are expected to add 12 per cent to its 2011 revenue. Investor.bg's total earnings amounted to 3.45 million leva in 2010.

Demand for new employees to remain stable in Q3 2011

Bulgarian companies in the public and social sector, as well as those engaged in the hotel and restaurant industry, were expected to hire the highest number of new employees in the third quarter of the year, according to a survey by recruitment company Manpower.

The agency also projects that employers in the manufacturing sector, as well as financial and business services providers, would also be looking for new hires in the summer months.

The survey was conducted among 752 domestic employers in Sofia, Plovdiv, Varna, Bourgas in Rousse, engaged in construction, manufacturing, transport, trade, mining, agriculture, public services, financing, business services, insurance and real estate.

The survey is intended to examine the readiness of local companies to boost or reduce their staff over the next quarter, but does not include data on the number of jobs that would be created in a particular sector.

The agency has concluded that employers' optimism to expand their headcount in the period will remain at the same level registered in the previous three months. As many as 24 per cent of the employers said they planned to hire new workers, with only 10 per cent of respondents saying they would resort to job cuts.

Firms engaged in the public and social sectors, including education and training companies and health organisations, are the most upbeat about recruitment, with more than one-third of these organisations eyeing recruitment.

Employers in the region of Plovdiv proved to be the most optimistic about the summer season, as one in three employers expressed willingness to expand their workforce between July and September.

Bulgaria to build Hemus Motorway, four high-speed roads with EU funds - report

The construction of Bulgaria's Hemus Motorway and four high-speed roads linking the country's borders with its central regions will cost three billion euro, of which 2.5 billion euro will come from EU programmes, Regional Development Minister Rossen Plevneliev said on June 30 2011.

The projects will be backed with EU funding as they have been included in the Trans-European Transport Network (TEN-T) programme, Plevneliev said, as quoted by news website vNews.

Apart from the Hemus Motorway linking the capital Sofia with the Black Sea city of Varna, the projects include the high-speed roads connecting the northeastern cities of Rousse and Shoumen, Varna and Durankulak, also in the northeast, Plovdiv - Asenovgrad - Roudozem in southern Bulgaria and the Rila high speed road (Kyustendil-Dougnitsa-Samokov) in the west.

The European Commission has added seven motorways and seven high-speed roads in Bulgaria to the updated European transport network, which should be all completed by 2020, Plevneliev said. Among the projects included in the scheme are the Lyulin, Trakia, Maritsa, Strouma and Cherno More motorways and the high speed roads linking Vidin-Botevgrad, Rousse-Makaza and the Gyueshevo border checkpoint to Sofia.

According to Government estimates, the development of all transport projects will cost a total five billion euro.
